

## **DRAFT RESOLUTION LIMITING ACCESS OF MILITARY RECRUITERS TO STUDENTS**

All recruiters (military, corporate or college) shall be subject to these procedures:

1. No recruiters shall be allowed on elementary or middle school properties, except in their capacities as parents or guardians of individual students in specific schools.
2. Each recruiting entity (college, employer, or branch of the military) shall be allowed to visit once quarterly at any given high school, in addition to college and career fairs. The schedule shall be posted in career centers and on their web pages, with at least two weeks' advance notice of each visit, and accessible by a telephone call to the school.
3. Except for career and college fairs, recruiters shall be accessed by interested juniors and seniors only in the Career Center or counseling office. Recruiting shall not take place in school cafeterias or hallways, or at sports events, or involve a captive audience, such as an entire class or mandatory assembly.
4. Recruiters shall not serve as mentors or tutors, coach sports teams, or sponsor intramural activities such as school clubs, except in their capacities as parents or guardians of individual students at specific schools.
5. A procedure shall be established for notifying school principals of any intimidation, harassment, or misrepresentations by recruiters, so that appropriate action can be taken.
6. Employees of the Pittsburgh Public School system, including JROTC instructors, shall not engage in recruiting activities on behalf of any outside entity, nor invite recruiters to have contact with students outside of procedures outlined in this section. In addition, JROTC instructors shall not conduct mass mailings to students to promote enrollment in JROTC, and shall meet Pennsylvania state teacher certification requirements.
7. Recruiters shall not sponsor or host activities involving contests, drawings, or lotteries, or engage in transactions that include the exchange of money or gifts (other than promotional items of minimal value).
8. Military exhibits, including vehicles, weaponry, and mobile units such as the U.S. Army Cinema Van, the U.S. Army Cinema Pod, the Army Adventure Van, and the Rockwell and Navy exhibit centers, shall not be allowed on Pittsburgh Public Schools property, nor shall any electronic games involving simulated violence.
9. Wherever U.S. Armed Forces promotional materials are made available to students, Pittsburgh Public Schools also shall allow materials encouraging students to make informed decisions on military enlistment and suggesting alternative means for obtaining employment or advanced education.
10. All Pittsburgh Public Schools high schools shall, if requested, allow equal student access by advocates of alternatives to military service.
