

Dear Representative:

I urge you to support “No Way to Treat a Child” legislation, HR 2407.

As Quakers, we are committed to the well-being of children. We are distressed that Palestinian youth are being held in abusive, cruel, and lengthy military detention under the control of Israeli armed forces.

HR 2407 will monitor and seek to deter this practice, which violates international humanitarian law, U.S. laws, and our values. Please join with other members of the U.S. Congress in supporting this legislation.

Sincerely,

Address:
