“The Mission of the 2015 Peace Bridge is to provide an atmosphere of enhanced joy, peace and unity for people to experience the diverse cultures that represent our area. Those interested are encouraged to participate, and without prejudice or bias of any kind, decide on ideas that will strengthen the people of our area and then act on those shared ideas so that they become reality and nurturing to all individuals. This event is to spiritually empower and encourage a path of action, to facilitate workshops and dialogue that supports unity, justice and human rights.”
