JOIN OUR WEEK OF ACTION!

Everyone deserves dignity and justice. But in the United States, 2.3 million people are locked away in prisons, jails, and detention centers, where they are subject to civil and human rights violations and a lack of access to adequate health care. With the pandemic, the dangers of imprisonment have multiplied exponentially, making every sentence a potential death sentence.

Join AFSC and communities across the U.S. for our National Days of Action to #FreeThemAll on Sept. 9 to 13.

SEPTEMBER COVID-19 CLINIC & FOOD DRIVE

With the first announcement of the pandemic our AFSC team has been dedicating to providing mutual aid, resources and support to our most vulnerable communities in South Florida.

Since March, we have provided over 1,000 free face masks to communities in the South Dade area. We have partnered up with the Florida Department of Health to organize free COVID-19 testing clinics in specific rural locations where access to healthcare is limited.

This past month we launched our monthly food distribution. On August 30th, AFSC gave away 200 boxes of food, PPE, and educational materials to farmworker communities.

Food distributions will happen at the end of each month leading til the end of the year. If you would like to volunteer, please email Miami@afsc.org!
Temporary Protection Status: On Monday, August 31, 2020, U.S. Citizen and Immigration Services (USCIS) released a cruel memo that changes more than a decade of immigration policy concerning Temporary Protected Status (TPS) beneficiaries and their families.

**New Changes:**
- TPS beneficiaries who travel outside of the U.S. with advanced parole and return to the U.S., their entry back will not be considered a "legal entry" for the purposes of family reunification.
- Although traveling with advance parole allows a TPS holder to re-enter the US, this only applies if they do not have any criminal history and they are not a threat to national security—e.g. if the person was arrested for a serious crime, upon returning to the US they could be refused entry.
