

Are You Concerned?

Will the hype about deficit reduction and the concocted financial cliff be used to undermine Social Security, Medicare and other essential government programs, increase unemployment and keep taxes low for the benefit of the 1%?

Join us for

Fiscal Cliff on *TRIAL*

**Saturday, December 1,
7:00-8:30pm**

UMKC Student Union Theater, RM. 103, 5100 Cherry St., KCMO

Hear testimony by community leaders and concerned citizens on the impact of the fabricated “Fiscal Cliff,” really a “slope,” dilemma and verdicts rendered by a panel of expert “judges.” The “Fiscal Cliff,” proposed government action and the questionable “grand bargain” will be analyzed as to expected impacts they could have on our economy and community. Our expert judges will also propose policies, which could create jobs, improve our economy and provide investments for a brighter future.

Our panel of judges include:

- **John Henry**, UMKC Professor of Economics, will assess the impact of austerity measures on workers, employment and the economy.
- **David Kingsey**, PhD., KU Medical School and Convener of KS & MO Gray Panthers, will discuss the consequences of proposed cuts to social security and the social safety net and the impact on our community.
- **June Carbone**, UMKC Prof. of Law, will examine the impact of our unbalanced tax system that increases abuses and unaccountability by CEOs and the 1% and undermines American society and institutions.
- **Dave Pack**, KC AFSC Program Clerk and Peace Action National Board member, will analyze excessive military spending and cuts and conversions which can be made without decreasing national security while increasing employment.

The event is sponsored by the UMKC Economics Club, American Friends Service Committee, Jobs Now, UMKC School of Law Chapter-National Lawyers Guild, Occupy KC and PeaceWorks-KC.
