

It has been 65 years since the U.S. atomic bombings of Hiroshima and Nagasaki. In the name of "national security" we have spent trillions of dollars, contaminated our air, land and water with radioactive waste, and stock-piled thousands of warheads. Yet, we are less secure as more nations acquire these deadly weapons.

***The time has come to stop this deadly game.
I call on Congress to:***

*Eliminate funding to modernize the nuclear weapons
complex and arsenal*

Stop nuclear pollution and fund clean up at DOE sites

Support nonproliferation & global disarmament

*Support a timetabled process to abolish nuclear weapons
NOW!!*

Sincerely,
