

## **SENE congressional delegation**

**While it is still possible to send snail mail to Washington, it often is very slow as it is still being screened for poisons. Email is best done by going to the website of each senator or congressman. Phone calls usually are the best way to be in contact. Faxes also work well if you want to be sure they get your written comments. Be sure to include your street address on the fax. (They like to respond to you .)**
